Michael Joseph Connolly, Secretary

To the Reader:

I am happy to present this publication of election results, which I believe will be more readable and useful than those preceding it because of the combination of primary and election results on the same page and the introduction of new printing techniques.

In addition to the 1982 state primary and general election results, this book contains combined tables of enrollment, registration, and turnout for each community in the commonwealth.

In term of background, after the primary and election each community sends the Secretary of State's office an official report detailing how many votes were cast for each candidate for each office and every question on the ballot. This publication is then prepared from these reports.

Write-in votes and stickers are consolidated and listed under "all others". Only those candidates who won or made significant impact are listed by name.

I'm always looking for ways to improve how elections are conducted and in the manner results are reported in Massachusetts; including the format of this publication. I'd be happy to have any suggestions you may wish to offer, while hoping that this volume will be of easy use to you.

Sincerely,

A handwritten signature in cursive script that reads "Michael Joseph Connolly".

MICHAEL JOSEPH CONNOLLY  
Secretary of State

*Proposed Amendment to the Constitution*

*Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on July 2, 1980 by a vote of 171-4, and on June 21, 1982 by a vote of 144-44?*

**SUMMARY**

The proposed constitutional amendment would remove the present constitutional prohibition against the use of public funds to aid or maintain private primary or secondary schools.

It would permit the Commonwealth, cities and towns to make public funds available to pupils attending private primary and secondary schools in the form of either aid, materials or services subject, however, to three specific limitations. First, the private school

could not be one that discriminates on the basis of race or color in its admission requirements. Second, the grant of aid must be consistent with the First Amendment to the United States Constitution which guarantees the free exercise of religion and prohibits the establishment of religion. Third, individual pupils would have to request the aid, materials or services. In addition to these three specific limitations, the amendment would authorize the legislature to enact other laws imposing conditions or restrictions on the grant of public aid, materials or services.

The proposal would also change the state Constitution to allow public money to be spent to aid infirmaries, hospitals, charitable or religious undertakings if they are either publicly owned or under the control of public officials. The state Constitution now prohibits such spending unless these institutions are both publicly owned and under the control of public officials.

**QUESTION NO. 2**

*Proposed Amendment to the Constitution*

*Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 19, 1980 by a vote of 123-63, and on June 21, 1982 by a vote of 125-62?*

**SUMMARY**

The proposed constitutional amendment would allow the legislature to enact laws authorizing the state courts to impose the death penalty on the conviction of crimes to be specified by law. The proposed amendment would provide that no provision of the state constitution may in the future be construed as prohibiting the imposition of the punishment of death.

**QUESTION NO. 3**

*Law Proposed by Initiative Petition*

*Do you approve of a law summarized below, on which no vote was taken by the House of Representatives or the Senate before July 7, 1982?*

**SUMMARY**

The proposed law would require that before the construction or operation of any new nuclear power plant or low-level radioactive waste storage or disposal facility in the Commonwealth, the legislature must make certain findings and a majority of voters must approve the new facility at a statewide election.

Before the question of building a new nuclear power plant could be submitted to the voters, the legislature would have to find that (1) the proposed facility is the best means for meeting energy needs based on certain economic, safety, environmental and social considerations; (2) a federally-licensed facility exists for the disposal of the high-level radioactive waste that would be generated; (3) an approved emergency

preparedness plan has been developed; (4) radioactive pollution standards have been promulgated; and (5) a demonstrated, federally-approved technology exists for decommissioning the proposed power plant.

Before the question of building and operating a low-level radioactive waste storage or disposal facility or of entering into an agreement with another state to build and operate such a facility in Massachusetts could be submitted to the voters, the legislature would have to find that the technology and site designated for the proposed facility are the best available based on certain economic, safety, environmental and social considerations. The legislature would also have to find that the obligations imposed on Massachusetts by any interstate agreement were no greater than those imposed on any other state.

The proposal would not apply to a facility which had obtained all necessary government approvals before August 5, 1981, nor to any facility for disposal or storage of radioactive wastes from medical or bio-research applications in Massachusetts.

*Referendum on an Existing Law*

*Do you approve of a law summarized below, which was approved by the House of Representatives on November 10, 1981 by a vote of 108-49, and by the Senate on November 16, 1981 by a vote of 29-10?*

SUMMARY

The law requires that a refundable deposit be paid for certain beverage containers sold in Massachusetts.

Beverage containers of less than 32 ounces must have a refund value of at least five cents and larger containers a refund value of at least ten cents. This requirement applies to non-biodegradable containers of carbonated soft drinks, mineral water, beer and other malt beverages, but not to containers of other alcoholic beverages, dairy products, natural fruit juices or wine. All beverage containers subject to deposit must clearly indicate the refund value on the container.

The deposit is paid by the consumer upon pur-

chase and must be refunded when the consumer returns the empty container to a proper dealer or redemption center, so long as the container does not contain any material different from its normal contents. Dealers and distributors are also subject to the same deposit and refund on the beverage containers they handle, and are also entitled to a handling fee of at least one cent per container.

No containers can be sold in the state if they are joined together by plastic rings or any other device that cannot be broken down by light or bacteria.

The law provides a bottler a reduction in corporate excise tax of one-tenth of one cent for each reusable beverage container which the bottler sells in the first three months of 1983. The law provides for additional unemployment benefits and, if the Legislature appropriates the funds, a job retraining program for employees of bottlers, canners, or manufacturers of beverage containers who lose their jobs as a result of this law.

The law takes effect on January 17, 1983.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The text suggests that a systematic approach to record-keeping is essential for identifying trends and making informed decisions.

In the second section, the author addresses the challenges of managing cash flow. It is noted that many businesses struggle with timing their payments and receipts. The text provides practical advice on how to negotiate better terms with suppliers and customers to improve liquidity. It also discusses the importance of having a reserve fund to cover unexpected expenses.

The third part of the document focuses on budgeting and financial forecasting. It explains how a well-defined budget can help a business stay on track and avoid overspending. The text offers tips on how to create a realistic budget based on historical data and market conditions. Additionally, it discusses the benefits of regular financial reviews and adjustments.

Finally, the document touches upon the importance of seeking professional advice. It suggests that consulting with an accountant or financial advisor can provide valuable insights and help navigate complex financial issues. The text concludes by encouraging business owners to take proactive steps to manage their finances effectively.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author provides a detailed breakdown of the company's revenue streams. This includes sales from various product lines and services. The data shows a steady increase in revenue over the past year, which is attributed to strategic marketing efforts and product diversification.

The third section focuses on the company's operational costs. It details the expenses related to production, distribution, and administrative functions. The analysis reveals that while production costs have remained relatively stable, distribution costs have increased due to rising fuel prices and logistics challenges.

Finally, the document concludes with a summary of the overall financial performance. It highlights the company's strong profitability and its ability to manage costs effectively. The author also outlines key areas for future improvement, such as optimizing the supply chain and exploring new market opportunities.
